

# Benefits Guidebook for Veterans with Disabilities

This four-part guide details monetary, health care and employment services and support benefits, and helps outline the interaction between government benefits and employment or self-employment. The goal is to provide Veterans and their families enough information to understand how work income can affect benefits. It provides tools so they can stay financially secure while remaining eligible for supports and services, and assists in transitioning away from supports when appropriate, in a planned process

It was created by the the Institute for Veterans and Military Families at Syracuse University (IVMF), in collaboration with Griffin-Hammis Associates LLC
