Kansas Department for Children and Families

Kansas Legal Services is proud to be one of the recipients of grants from the State of Kansas to help vulnerable children and families in Kansas. KLS will provide legal assistance in adoption and guardianships for kin caregivers of children at risk of entering the child welfare system.

KLS will also provide legal assistance in other areas that affect a family's journey to stability and safety.

The goal of this program, and for all of the programs funded under this project, is to reduce the number of children and youth in foster care, and prevent foster care placement for those at risk.

What is Kinship Care?

According to the Child Welfare League of America, kinship care is the full time care, nurturing and protection of children by relatives, members of their tribes or clans, godparents, stepparents or any adult who has a kinship bond with a child. This definition is designed to be inclusive and respectful of cultural values and ties of affection. It allows a child to grow to adulthood in a family environment.
